

CE Approved Industrial Automatic Extruder Protein Bar Production Line For Sale to to Algeria

CE Approved Industrial Automatic Extruder Protein Bar Production Line For Sale to to Algeria by Shandong Loyal Industrial Co.,Ltd. , we provide latest information about the products regularly.

The first contact with this customer in Algeria was in October, 2021, and the customer took the initiative to add my WhatsApp for [snap bar making machine](#). Language is Arabic. The customer was a well-known food manufacturer at the time, and also produced instant noodles, potato chips, candies and other snacks, and nutrition bars were the new industry they planned to enter.

The customer has not been exposed to the [nutritional bar production line](#) before, so I initially introduced him to the workflow of the [nutritional bar production line](#):

Grain puffing&Extrusion?Sugar Heating?Ingredients Mixing machine?Protein Bar Cutting?Cooling?Packing

Algeria is located on the southern coast of the Mediterranean Sea. Algeria is rich in oil exports, strong in foreign exchange payment, and has a good letter of credit. It is the market with the greatest potential and the broadest prospects in North Africa, with the second largest economic scale and the largest GDP in North Africa. According to Algerian customs statistics in 2012, China is the second largest trading partner of Algeria's import market after France. Commercial nutrition bar making machines and other snack machines accounted for 18% of total imports. In terms of the heating method of the equipment, I recommend the customer to choose the diesel method for [snap bar making machine](#), which is more cost-effective.

The client, who has never been in the nutrition bar business, was worried about the recipe. I use my work experience and my sensitivity to the market to help clients start new businesses with the most popular formulas on the market:

Raw Materials Of Snack Bar Of Snack Bar Production Line	
1	Oats
2	Rice
3	Dried Fruits
4	Nuts

When I provide the recipe of [energy bar production line](#), I also remind customers: Nutrition bars are not only nutritious, but also have a good effect of satisfying hunger. Whether it's for breakfast or as a snack for afternoon tea, nutrition bars provide a low-fat flavor that will keep you energized for a good day. However, the nutrition of the nutrition bars generally sold on the market is not as healthy and nutritious as the label describes. Because they are usually made with artificial sweeteners, they contain significantly less nutritional value. However, some dried fruits rich in dietary fiber, such as figs, red dates, raisins, and dried plums, can ensure that the produced nutrition bars are natural, healthy and delicious.

Technology of energy bar production line	
1.	Dried fruit rich in dietary fiber: Without the help of liquid sweeteners, dried fruit can also play a certain role. Dried fruits can provide a lot of natural energy and are rich in dietary fiber, which can slow down the speed of blood.
2.	Almonds: Almonds are the most alkaline of the nuts and can increase the alkalinity of the bar.
3.	Cashews: Contains A, B1, B2 and other vitamins and minerals, especially trace elements such as magnesium, selenium, etc., which have antioxidant, anti-aging, anti-tumor and anti-cardiovascular effects.
4.	Hemp seeds: A tablespoon of hemp seeds contains 45% of the body's recommended daily intake of magnesium and iron, as well as high amounts of B vitamins, potassium and chlorophyll. nutritiona
5.	Cinnamon powder and ginger powder: Cinnamon powder is a powder made from the dried bark and bark of Da Ye Qing Hua cinnamon, which has a fragrant smell and can improve the taste of baked goods very well. It has the functions of dispelling cold and relieving pain, promoting blood circulation and promoting menstruation. It can reduce blood sugar and blood lipids. Another spice, ginger, can help improve digestion and even promote metabolism.
6.	Flaxseed: Flaxseed contains a lot of omega 3 fatty acids and dietary fiber, and has a light nutty flavor. In nutrition bars not only produces no off-flavors, but also adds a nutty aroma and sweetness. In addition, it can improve the texture and texture of nutritional bars.
