80 kw Industrial Tunnel Microwave Almonds Curing Sterilizing Dryer For Sale In

80 kw Industrial Tunnel Microwave Almonds Curing Sterilizing Dryer For Sale In Iran by Shandong Loyal Industrial Co.,Ltd. , we provide latest information about the products regularly.

As Industrial Tunnel Microwave Almonds Curing Sterilizing Dryer manufacturer, microwave sterilization equipment manufacturing process is used for sterilization of food, medicine, chemical products and other microwave equipment.
Ali, a customer in , contacted us through Made in China. Our loyal company has more than 10 years experience in the industrial tunnel microwave dryer.

The products baked by the Industrial Tunnel Microwave Almonds Curing Sterilizing Dryer keep its original color, the grains are puffed and crisp. The industrial tunnel microwave dryer for dried fruit can achieve different functions such as drying, baking, sterilization (insecticidal) and puffing by adjusting microwave power, convey speed.

80 kw Industrial Tunnel Microwave Almonds Curing Sterilizing Dryer picture

By replying to the information of Made in China, I got the customer's email address. After a few emails with Ali, we have each other's WhatsApp. After communicating with the customer Ali, know that the ian customer Ali has his own almond plantation, with an annual output of up to 500 tons. Customers have always been the sales of raw materials almond.
ater, after conducting market research, customers also want to make cost prices to maximize benefits, he want a industrial tunnel microwave almonds curing sterilizing dryer to dry the almonds.
Microwave almond microwave ripening equipment is suitable for large quantities of various dried fruits in the field of roasted seeds and nuts. Such as: walnuts, chestnuts, walnuts, sunflower seeds, watermelon seeds, pumpkin seeds, shellless melon seeds, peanuts?

80 kw Industrial Tunnel Microwave Almonds Curing Sterilizing Dryer loyout

The customer Ali is a newer in the field of industrial microwave dryers and needs our introduction and guidance, although Ali has done some research himself. First of all, I introduced to the customer, what is microwave curing drying equipment? And How it can reach to the effect of the sterilization?

The microwave is an electromagnetic wave has a frequency of 300MHz-300GHz. The moisture in the heated medium are polar molecules, under the cation of rapidly changing high-frequency electromagnetic fields, their polar orientation will change with the change of the external electric field, causing molecular motion and mutual friction effects. Then to achieve the purpose of microwave heating and drying. When drying, sterilization is achieved by thermal effect of the microwave and the non-thermal biochemical effect.

And customer Ali want to know the 80 kw Industrial Tunnel Microwave Almonds Curing Sterilizing Dryer price with the different models of the industrial tunnel microwave dryer with curing sterilizing , then he can choose the suitable one for this almond drying processing for sale. Then I have show the customer the technical parameter of the industrial tunnel microwave dryer for him, and give him a good suggestion.

The Technical Parameters Of Industrial Tunnel Microwave Almonds Curing		
Model	Size L*W*H?Can Be Customized According To The Customer's Requirements?	Output Powe
MSE-10KW	5000mm*825mm*1750mm	?10KW
MSE-30KW	8500mm*1160mm*1750mm	?30KW
MSE-50KW	12500mm*1160mm*1750mm	?50KW
MSE-80KW	13500mm*1650mm*1750mm	?80KW
MSE-150KW	22400mm*1850mm*1750mm	?150KW
MSE-300KW	32000mm*1850mm*1750mm	?300KW

And customer Ali also care about the Microwave Almonds Curing Sterilizing Dryer quality, Then I have provide our company ISO , CE, SGS, ets certificate to him. Also I tell ali the advantages of our machine industrial tunnel microwave curing sterilizing dryer.

Toshiba Water-cooled Magnetron

Electricity cabinet

Closed cooling tower

PLC control system

Raytek temperature controlled probe

Microwave power supply

The Advantage Of The Industrial Tunnel Microwave Almonds Curing Sterilizing Dryer

1 Toshiba Or Samsung Magnetos Are Being Used

2 Plc System For Easy To Understand And Operate User Control

3 304 Food Grade Stainless Steel Is Widely Used

4 Teflon Conveyor Is Belt Used Variable Frequency

5 Precise Temperature Control

6 Microwave Sterilization System Heating Process Is Clean.

7 Microwave Sterilization System Heat Penetrates Both On The Surface As Well As Internally Within The Object Placed For The Treatment.

8 High Speed Of Heating Reduces Total Time Of Processing.

9 Microwave Heating Process Is Highly Controllable

10 One Button Stop Design

What’s more, We have made a video call to see the Industrial Tunnel Microwave Almonds Curing Sterilizing Dryer testing working of the industrial tunnel microwave almonds curing sterilizing dryer, And before that we have provide the customer many related videos and industrial tunnel microwave machine pictures. Finally, after three months of communication, the ian customer Ali finally confirmed the order with our company. And we have shipped to to customer Ali in May last year.
