operating frequency	2450±50HMz		2450±50H
Rated input apparent power	?60KW		?120KV
Microwave output	?50KW		?110KV
Inlet and outlet height	40-100mm		40-100m
type of cooling	Water-cooling/Air cooling		Water-cooling/A
Dehydration Rate	custom-made		custom-m

Ugandan customer John mainly wants to dry honeysuckle, which has been known as a good medicine for clearing away heat and detoxification since ancient times. It is sweet and fragrant in nature, sweet and cold and clears heat without hurting the stomach, and the fragrance is transparent and can dispel pathogens. Honeysuckle can not only dispel wind-heat, but also clear and detoxify blood. It is used for various febrile venereal diseases, such as body heat, rash, spots, heat-toxic sore carbuncle, sore throat, etc., with significant effects. Because of this characteristic of honeysuckle, he is much loved by people.

Microwave Honeysuckle Herb Drying Sterilization Machine Technical Parameters	
Type	LY-150
size	7500*3000*2800mm
Voltage	380V three phase
Rated power	14.5kw
Trolley	12set (1210*810*1750mm)
Tray Quantity	312pcs (600*800*50mm)
Tray Material	PP or Stainless steel
Input capacity	850-1500kg/batch
Drying temperature	40-80° C
Dryer time	depends on material moisture
Energy consumption	20kw-h

As a result, medicinal materials like honeysuckle are unanimously loved by everyone, and the market demand for honeysuckle is increasing. In this specific environment, the purchase of machines by customers will also increase.

Microwave Honeysuckle Herb Drying Sterilization Machine will be sent to Uganda

The Ugandan customer is very concerned about the material of our machinery and equipment. He is afraid that similar things will happen again. I immediately provided the material of our machine and sent him the material inspection report. The shell of the microwave oven is made of stainless steel and other metal materials. It can prevent microwaves from escaping from the oven, so as not to affect the health of the body. Stainless steel types: 201 and 304. He immediately believed me, and he wanted more information about the machine. I sent him various information about our machine.

Since he has a lot of experience before, he understands a lot of things. After explaining to him how to use and install it, he placed an order for our machine.
