

2T Tunnel Mesh Belt Herbaceous Plants Licorice Root Dryer Sterilization Equipment For Sell In Switzerland

As one professional herbs dryer machine manufacturer, we can offer small, medium and large tunnel mesh belt herbaceous plants licorice root dryer sterilization equipment for sale. Shrey in Switzerland contact us through a local agent. Because our Fluid Bed Herb Drying machine are very popular in their country, he saw the logo of the last company on our machine at his friend's factory. He is an engineer and has a lot of research on machines.

As one professional herbs dryer machine manufacturer, we can offer small, medium and large tunnel mesh belt herbaceous plants licorice root dryer sterilization equipment for sale. Shrey in Switzerland contact us through a local agent. Because our Fluid Bed Herb Drying machine are very popular in their country, he saw the logo of the last company on our machine at his friend's factory. He is an engineer and has a lot of research on machines. So I wanted to build a tunnel mesh belt herbaceous plants licorice root dryer sterilization equipment factory for a long time.

During the negotiation, I introduced the performance of the dryer to the Swiss Shrey. The DW industrial food continuous conveyor mesh belt dryer for Seaweed Pepper Herb is set to burn coal as fuel to generate clean hot air as the drying medium to absorb the moisture in the traditional Chinese medicine, discharge the humid air that reaches a certain amount of moisture, and reciprocate to reach the moisture required by the traditional Chinese medicine. The herbs dryer machine is simple, convenient, small in investment, good in effect, and low in cost. It is the preferred drying equipment for Chinese medicine and food processing enterprises. This equipment can meet the requirements of room temperature and variable temperature drying of a variety of traditional medicines. There are container-type drying equipment and tunnel-type drying equipment.

During the negotiations, the Swiss customer asked the following questions:

(tunnel mesh belt herbaceous plants licorice root dryer sterilization equipment pic)

What is the role of licorice herbs?

1	Herbs can nourish the lungs, liver and kidneys. This is of great benefit to the regulation of the body's immunity, it can improve the body's ability to resist disease and recover. Especially patients, can play a very good role in promoting recovery.
2	Herbal medicine has a good anti-cancer, anti-cancer effect.
3	Herbal medicine can reduce the fatigue of the human body and promote the recovery of human health, suitable for sub-healthy people. At the same time, Cordyceps can regulate the functions of our liver and kidneys.
4	Herbal medicine has a good effect of resolving phlegm, relieving cough, and relieving asthma, diseases of pulmonary qi, such as lung Emphysema, bronchiectasis, and chronic obstructive pulmonary disease.

certain role in adjuvant therapy. Secondly, the herbal medicine has a good regulation of hematopoiesis and the role of blood. In addition, *Cordyceps sinensis* has the effect of regulating the three highs of our country and has an auxiliary therapeutic effect on the treatment of hyperlipidemia, hyperglycemia and hypertension.

During the negotiation, the Swiss customer asked me about the technical parameters of the tunnel mesh belt herbaceous plants licorice root dryer sterilization equipment

Technical Parameter Of Herbs Dryer Machine							
MODEL	LY-1.2-8	LY-1.2-10	LY-1.6-8	LY-1.6-10	LY-2-8	LY-2-10	
Number of units	4	5	4	5	4	5	
Bandwidth (m)	1.2		1.6		2		
Length of drying section (m)	8	10	8	10	8	10	
Spreading thickness (mm)	10-80						
Operating temperature (°C)	50-120						
Steam pressure (Mpa)	0.2-0.6						
Steam consumption (Kg/h)	120-130	150-375	150-375	170-470	180-500	225-600	
Heat exchange area (m ²)	272	340	352	440	448	560	
Drying time (h)	0.2-1.2	0.25-1.5	0.2-1.2	0.25-1.5	0.2-1.2	0.2-1.5	
Drying strength (Kg water/h)	60-160	80-220	75-220	95-250	100-260	120-300	
Number of fans	5	6	5	6	5	6	
Total fan power (kw)	9.9	12.1	9.9	12.1	18.2	22.2	
Total power of equipment (kw)	11.4	13.6	11.4	13.6	19.7	23.7	
Dimensions	Length (m)	10.05	12.05	10.05	12.05	10.05	12.05
	Width (m)	1.5	1.5	1.91	1.91	2.33	2.33
	Height (m)	3.15	3.15	3.15	3.15	3.65	3.65
Total weight (Kg)	4800	5780	5400	6550
